Most art supplies will be provided or are included in the supply list, however, occasionally some extra supplies may need to be brought in at the time of the unit. A request will go home on the Wikispace and in the weekly planner at those times.

Grade 7

Language, Bible, Geography and Science

Grade 7 students will be using Google classrooms this year as the primary communication for homework, notes, tests, etc. Students will be taught how to navigate the program in class and Mr. Collier will be available after school to help parents understand this new tool for education. Students are also encouraged to bring their own device (e.g. chromebook, PC, Mac) that they would be able to take between school and home to ensure that a device is always readily available to them as our school chromebooks are shared between classes.

Grade 8

Language and Bible

Students will need a big language binder with a divider to keep Reading and Writing organized. For Bible class it would be very helpful to have a Bible of their own; either NIV or ESV.
